Hazardous Weather

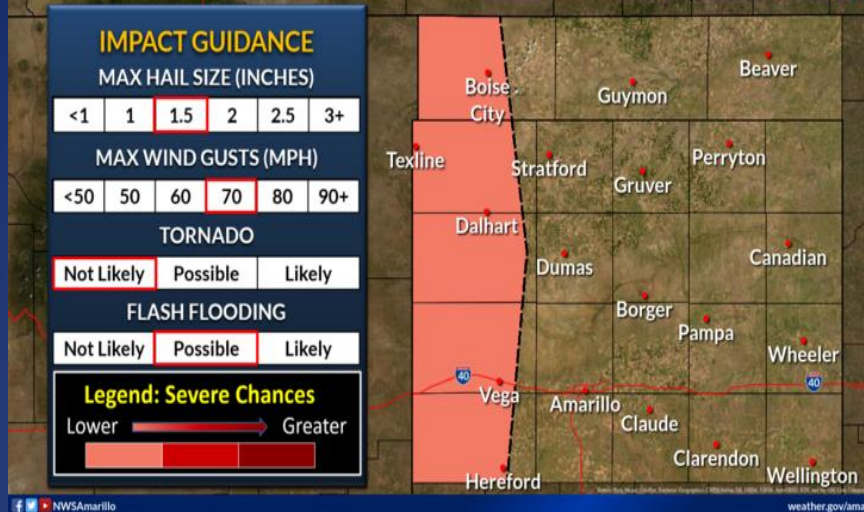

Hazardous Weather

Severe Thunderstorm Potential - 6pm to 10 pm

Storm motion will be east around 10 mph.

Weather Forecast Office
Amarillo, TX
Issued Jun 12, 2021 4:27 AM CDT

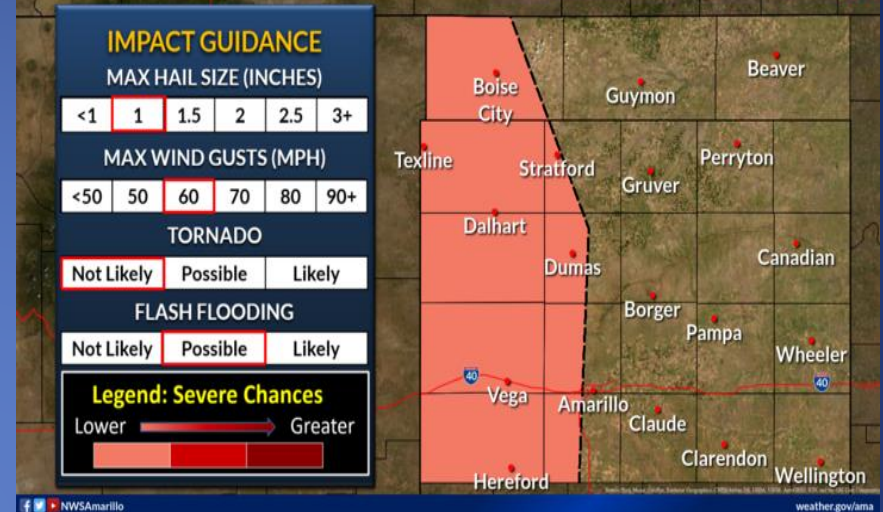

Severe storms possible this evening. Storms may start off as isolated to the east, and will be both a hail and wind threat. Slow storm motion and high moisture content, will also lead to the potential for very heavy rain and localized flooding.

Severe Thunderstorm Potential - 10 pm to 2 am

Storm motion will be east around 10 - 20 mph.

Weather Forecast Office
Amarillo, TX
Issued Jun 12, 2021 4:29 AM CDT

Storm are expected to become more of a line later tonight and will be more of a wind threat. But storm motion, while faster, will still be slow enough for localized flooding concerns.

Hazardous Weather

Severe Weather Outlook

Late This Afternoon Into This Evening

Weather Forecast Office
Midland/Odessa, TX

Issued June 12, 2021 7:50 AM CT

Threats:

Isolated
Large Hail

60 mph
Wind Gusts

Frequent
Lightning

- Always have a severe weather safety plan in place no matter what category your area is in.
- Have multiple ways to receive warnings.

Thunderstorms
No severe storms
expected

1 – Marginal
Isolated severe
storms possible

2 – Slight
Scattered severe
storms possible

3 – Enhanced
Numerous severe
storms possible

4 – Moderate
Widespread severe
storms likely

5 – High
Widespread severe
storms expected

f t NWSMidland

weather.gov/maf

Strong to severe thunderstorms may be possible late this afternoon into this evening, mainly over portions of Southeast New Mexico. The strongest storms will be capable of producing isolated large hail and damaging wind gusts. Frequent lightning will also be possible with any storm that develops. Stay aware!

The SPC has the extreme southwestern Texas Panhandle and northwest South Plains in a Slight Chance for severe thunderstorms this afternoon and evening which pushes the Marginal Risk area further south and east, covering all of the Caprock. Strong wind gusts up to 60mph and hail up to the size of golf balls will be possible with the strongest storms.
